## Firefield Introduces New Close- to Mid-Range Rifle Scope: RapidStrike

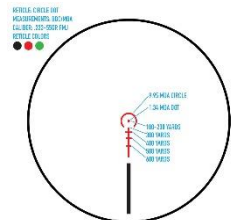

**(MANSFIELD, TEXAS)** – Improve quick target acquisition speeds with the help of the new Firefield RapidStrike 1-6x24 Rifle Scope Kit. Firefield’s kit comes complete with a cantilever mount, throw lever and honeycomb lens filter to reduce glare. Firefield developed the RapidStrike for close- to mid-range training, competitions, hunting and target shooting.

The RapidStrike 1-6x24 Rifle Scope (FF13070K) features multi-coated, anti-reflective glass, a red and green illuminated circle-dot reticle with 5 brightness settings, 6x optical zoom, pop-up locking turrets to prevent accidental changes to windage and elevation, ½ windage and elevation adjustability and durable 30mm 6061-T6 aluminum body.

This rugged and lightweight rifle scope can perform in -13° to 131°F degree weather. The RapidStrike is built to last featuring IP67 rated waterproof, dustproof, fogproof and shockproof making them a dependable rifle scope.
