.308 Win.

The .308 Win. was put on the market as a hunting and sports cartridge in 1952. Its strong points are the high universality and the pleasant shooting behaviour – suitable for all European cloven-hoofed game.

GECO is offering the calibre .308 Win. with the bullets GECO Express, GECO Softpoint, GECO Plus, GECO Zero (leadfree), GECO Target FMJ and GECO Sport.

GECO Plus

The GECO Plus is a precise projectile designed using the latest technology. The GECO bonding technique is characterised by the extremely strong solder joint between the projectile core and jacket. As a result of this the GECO Plus mushrooms with minimum fragmentation and has excellent penetration even in heavy game or if striking bone. The breaking points visible on the jacket control the deformation and ensure the bullets effectiveness.

Construction GECO Plus bullet

For deep penetration with absolutely minimum carcass damage for deer or even larger game.

1. **GECO Performance Point:** For precision and safe deformation
2. **GECO Grooves:** For controlled effectiveness
3. **GECO Bonding:** For deep penetration and venison protection
