GECO HEXAGON (revolver cartridge)

The GECO HEXAGON is not only available as precision cartridge for pistols. In 2015, GECO introduced this cartridge also for revolver.

The Revolver cartridge GECO HEXAGON with Sintox ignition is available in caliber .357 Magnum. and in caliber .44 Rem. Mag.

The most important product features:

- 1) **Aerodynamically favourable silhouette** for a flatter trajectory
- 2) **6 stabilisation grooves** produce a "golf ball effect"
- 3) **Centre of gravity optimised** and moved back for better precision
- 4) **Improved barrel fit** due to the long cylindrical shank

Construction GECO HEXAGON

1. **Closed base** eliminates lead emissions
2. **High-performance propellant** for uniform velocity
3. **Precision case** with optimised concentricity
4. **NATO-approved SINTOX primer** containing no heavy metals
