8 x 57 IRS

The 8 x 57 IRS is a first-class cartridge for drillings.

Since there already was an 8 x 57 IR, the next logical step was to also create a cartridge with rim for break-open rifles in addition to the 8 x 57 IS with the stronger 8 mm bullets. Well, the 8 x 57 IRS is the rimmed version of the rimless 8 x 57 IS – both were introduced in 1905.

GECO is offering three loads with the 185 gr GECO Softpoint bullet, with the 196 gr GECO Plus and with the 139 gr lead-free GECO ZERO.

GECO Softpoint

Thousands of roe deer have been shot with the legendary GECO Softpoint bullet which is suitable for universal use and in almost any hunting situation. It responds reliably in the game's body and has good target ballistic effectiveness. The thin walled jacket of the bullet is the secret of this successful design, deformation is initiated by the marked lead tip and then the jacket responds to the increased resistance, even with heavy game the deformation process remains well controlled.

Construction GECO Softpoint bullet

Universally usable and copes with almost any hunting situation.

1. **GECO Classic Tip:** For safe deformation and stability
2. **GECO Lead Core:** For a well-balanced performance
3. **GECO TS Jacket:** For precision and barrel protection
