- Manual

Featuring a digital switch control with six variable brightness levels for daytime use and six settings in night vision mode, the new Sightmark® Ultra Shot M-Spec Reflex Sight is built for adaptation to any environment a shooter finds themselves in. Its magnesium alloy housing offers exceptional durability along with a battery life of up to 1,000 hours of superior functionality. The device features a protective hood that shields it from impact, a shock-proof frame for up to .50 caliber recoil and is fully submersible. Equipped with dual-pane glass and a parallax-corrected lens system, the Ultra Shot M-Spec allows shooters to sight accurately from 10 yards to infinity.
